The prisoners of war will be detained until they can be transferred to Dainy and thence to Japan.

The conference between the Japacese and Russian commissioners, at which the terms of surrender were ar ranged, took place at Shuishying at 1 p. m. on Monday afternoon, and lasted uitil 8 o'clock at night. The Russian commissioners were Chief of Staff Reiss Surgeon-General Balachoff, Colone Vostock and two other Staff officers, with two interpreters. The Japanese commissioners were Major-General Dicht, Chief of Staff; Major Yamaoka, Dr. Ariaga and two others, Staff offi cers, with two interpreters.

Thus has Japan won the greatest Russian stronghold in the Far East after a siege in which she lost over 50,-000 soldiers who were put out of action in the most sanguinary and desperate fighting the world has ever seen. The surrender of the fortress at the present time came as a surprise even to Japan, as the desperate determination and courage of the Russians indicated that the struggle would be one to the bitter end.

It was well known to the Japanese that the destruction of the fortress guarding the main defences of the western half of the fortified ridge made the investment of the place upon the east only a matter of a short time, and insured the segregation of the forts further east upon the ridge. The steady advance of the besiegers upon the west flank since the capture of 203 Metre Hill, up the valley from the shores of Pigeon Bay to the outskirts of the new town, enabled them, with the capture of the North Talyankow Fort, to close in upon the city from the west, and segregate the Chair Hill forts, so that they could be dealt with in detail. It was evident, therefore, that despite the most determined opposition, the investing army could in a Dated at said Honolulu, Oahu, this week or ten days closely invest and dominate Port Arthur city, the center of the whole system of defence, at that the powerful forts, both east and vest, would be isolated.
